SUMMARY

Senior Software Developer with 6+ years building production web and mobile applications using React.js, React Native, Next.js, TypeScript, and Node.js. Built data-driven dashboards, real-time features, and end-to-end product functionality across project management, logistics, and e-commerce platforms.

PROFESSIONAL EXPERIENCE

Senior Software Developer — React.js & React Native

Aug 2023 – Present

Omnics Technologies Pvt Ltd — Hyderabad, India

- Built BK Sales Platform's web console state layer using Redux Toolkit, Zustand, and React Query, reducing redundant API calls and stale-state bugs
- Built a drag-and-drop scheduling board with an integrated PDF viewer and multilingual support for BK Sales
- Built the BK Sales mobile app's data layer using a repository pattern, so new backend contracts plug in without touching screens
- Implemented persistent OAuth authentication for the mobile app using Expo Secure Store
- Built several feature modules for CommCorner — attendance, gate-approvals, dues, amenities, staff-settings, access-requests, facility-reports, events, and notifications
- Built PDF generation/viewing for CommCorner's receipts and reports
- Added push notifications (Firebase Cloud Messaging), document scanning, and QR-code workflows to CommCorner
- Built a Gantt chart system and data grids (React Window) handling 100,000+ records for CLIMOVA, along with role-based dashboards and real-time monitoring dashboards (Apex Charts)
- Built geo-spatial planning tools (Google Maps) and an invoicing engine for LOGIT, plus a companion React Native app with real-time driver-operator chat
- Designed a chat UI (AI Chatbot Interface) supporting multiple response formats with fast conversation search

Engineer — Application Management

Oct 2021 – Jul 2023

Azentio Software Pvt Ltd — Bengaluru, India

- Extended a production insurance portal to support claims, policy management, fund switching, and beneficiary updates, resolving critical CRs blocking releases
- Streamlined multiple customer request workflows, improving reliability and portal efficiency
- Coordinated weekly/monthly delivery reporting with stakeholders

Software Developer

Sep 2020 – Oct 2021

SUGAR Cosmetics — Mumbai, India

- Built a mobile-first, SEO-optimized e-commerce storefront with login, cart, wishlist, and checkout

- Built a real-time influencer earnings dashboard and automated commission payouts, replacing manual reconciliation

TECHNICAL SKILLS

Frontend Development: React.js, Next.js, TypeScript, JavaScript (ES6+), Redux Toolkit, Zustand, Context API, React Query / TanStack Query, TailwindCSS, HTML5, CSS3, Responsive Design

Mobile Development: React Native, Expo, Expo Router, NativeWind, iOS & Android, Native Modules, Firebase Cloud Messaging, Push Notifications, App Store & Play Store Deployment (EAS Build)

Backend & Data: Node.js, Express.js, REST APIs, WebSockets, Prisma, PostgreSQL, MongoDB, Redis, SQL

Cloud & DevOps: AWS (S3, EC2, Lambda, CloudFront), Firebase, Jenkins

DevOps & Tooling: GitHub Actions, CI/CD Pipelines, Git, Technical Documentation

AI / LLM: Conversational / Chat UI, AI-Assisted Development (Claude Code, GitHub Copilot)

Testing & Quality: React Testing Library, Unit / Integration Testing, Code Reviews, Performance Optimization

Tools & Process: Git/GitHub, Jira, Postman, Agile/Scrum, i18n/l10n, RBAC

EDUCATION & ACHIEVEMENTS

Bachelor of Technology (B.Tech), Computer Science — JNTUK, 2014 – 2018

3rd position, Masai Hackathon

Recognized by product management and engineering leadership for consistent on-time, high-quality delivery across multiple production releases

LANGUAGES

English, Telugu, Hindi
